**Candle-lite Introduces the Waves Collection at the  
2014 International Home + Housewares Show**

Candle-lite, the leading candle manufacturer in the Food, Drug and Mass channels, unveiled their brand new **Waves** collection at the 2014 International Home + Housewares Show in Chicago. The collection is aptly described as being “inspired by nature.”

The patent pending design is a fusion of wax that mimics a wave design. Scented wax beads fill the base of the jar and topped with scented translucent wax to create a water effect on the “bed” of sand. The front label graphic is highlighted with gold metallic accents that create a beautiful sparkling water effect.

Proudly made in the U.S.A. by Candle-lite, the **Waves** collection features a 13.5 oz. 3-wick jar with decorative lid. Six water inspired fragrances with names such as *Sunlit Coral* and *Moonlight Oasis* are captured in dual tones of vibrant color.

Candle-lite, a CL Products Intl. LLC company, has been manufacturing quality candles since 1840. Visit [www.candle-lite.com](http://www.candle-lite.com) for more information.
